

Admin Support Sites

As a Learning Management System (LMS) administrator, we always want you to feel supported. Listed below are a variety of links that will be useful for you. You should always report any voice pronunciations or technical issues to your ReadSpeaker account representative or email support@readspeaker.com (CC your account representative.)

Accessibility Statements

Our VPAT statement is our Voluntary Product Accessibility Template can be found in [this folder](#). It is required of US institutions and demonstrates our commitment to the highest quality accessible online standards W3C. WebAim.org is a site recommended for finding out more information about accessible online materials. Many institutions subscribe to the Quality Matters™ rubric and perform peer reviews on their online and hybrid courses. You will need to include the VPAT statement for ReadSpeaker in your resources for Quality Matters™ reviews.

ReadSpeaker has made every attempt possible to ensure that the print materials provided to you are accessible.
