ReadSpeaker

Reimagine student success with a comprehensive suite of audio-enhanced learning tools.

ReadSpeaker text-to-speech solutions are designed to support learners as they work to overcome accessibility and learning challenges. Empower learners to listen to text with synchronized highlighting across digital assignments, books, web pages, scanned notes, personal documents, and more. This fosters confidence and independence, motivating students to take charge of their education and achieve their full potential.

TextAid by ReadSpeaker

- One click web reading
- Download audio for offline listening
- The reading ruler and page mask help you focus on the text
- Extensions for Google Chrome and Microsoft Edge
- Look up definitions in the dictionary
- Draw or write directly on any document you've uploaded
