ReadSpeaker for Moodle: Getting Started

You are ready to launch once you have implemented ReadSpeaker within your Learning Management System (LMS) testing environment!

Ways to Introduce ReadSpeaker

Your students and faculty need to know what ReadSpeaker is, what it can do for them, and why they should use it! The more faculty promote the product and demonstrate its use, the more students will utilize it to achieve success. Below are some resources.

1. ReadSpeaker for Moodle: Faculty Email
2. ReadSpeaker for Moodle: Accessing webReader and docReader
3. ReadSpeaker for Moodle: Accessing webReader, docReader, and TextAid
4. ReadSpeaker for LMSs Support Page
5. ReadSpeaker for Moodle: Training PowerPoint
6. ReadSpeaker Button Highlights Handout docReader and webReader
7. ReadSpeaker Button Highlights Handout docReader, webReader, and TextAid
8. ReadSpeaker for Moodle: Why Should I Use It?
9. ReadSpeaker TextAid Poster
10. ReadSpeaker webReader and docReader Poster

11. ReadSpeaker webReader, docReader, and TextAid Poster
12. Link to SoftChalk Lessons
13. VPAT and Product Specifications
14. Customer Portal Guides
15. YouTube Playlists

Repeat Messaging

Many successful implementations involve repeating messages to their users. We suggest repeating the announcement item to draw attention to the ReadSpeaker Suite of Learning Tools each term and at key points during the term. We understand that your semester can be filled with many activities and that dates can sometimes get lost. To assist with repeat messaging, we suggest adding a reminder to your calendar to reset the dates on your post.

Let's get started! On the next page, you will find various activities for introducing the ReadSpeaker Suite of Learning Tools to your faculty and students. You will notice that your audience is listed for each activity. Check off each item as you do it.

The Moodle Packet webpage has support documents for most items listed. If you require additional support information, please contact the Educational Development Manager.

ReadSpeaker webReader is integrated for all HTML parts of Moodle, and ReadSpeaker docReader reads your documents. (See the product specifications for the types of documents.)

Activity	Audience
Email	Faculty, Students, Administration
Posters and Social Media	Faculty, Students, Administration
Workshop	Faculty, Students
Onboarding/Professional Development	Faculty
LMS Announcement and Video	Multi-audience message to all LMS-users
Website	Faculty – Teaching/Resource Site Student – Resource Site
Playing a clip at the start of class	Faculty
